

# Multi-purpose bucket BM

The multi-purpose bucket is equipped with a grapple with pantograph-processed teeth, designed for handling bulk and silage products. The presence of the grapple allows to avoid the loss of material during handling.

A third hydraulic line is required in order to use this implement.

## Technical data sheet

			BM	
Width			2000	2200
Depth			910	910
Usable height (closed)			755	755
Usable height (open)			1610	1610
Volume			1,07	1,18
Weight			545	600
Additional hydraulic lines			1	1
