

Multi-purpose bucket BM

The multi-purpose bucket is equipped with a grapple with pantograph-processed teeth, designed for handling bulk and silage products. The presence of the grapple allows to avoid the loss of material during handling.

A third hydraulic line is required in order to use this implement.

Technical data sheet

			BM	
Width			2000	2200
Depth			910	910
Usable height (closed)			755	755
Usable height (open)			1610	1610
Volume			1,07	1,18
Weight			545	600
Additional hydraulic lines			1	1
