

FLET manure fork with grapple

Implement used for collection of manure, silage and other light materials, such as mowing waste and branches. This multi-purpose fork features a small gap between the tines which minimises material dispersion. The lower tines are equipped with special reinforcing bushings mounted on a robust frame that does not deform under the weight of the load.

Its use requires a loader equipped with third hydraulic line.

Technical data sheet

			FLET		
Width			1500	1980	2200
Depth			820	820	820
Usable height (open)			1310	1310	1310
Usable height (closed)			655	655	655
Volume			0,88	1,16	1,29
Weight			259	308	328
Lower tines			7	9	10
Upper tines			7+2	9+2	10+2
Additional hydraulic lines			1	1	1
