

FPT pallet fork with side-shift

Pallet fork with shifting function allowing side movement of the implement. Its compact, sturdy structure allows loading pallets and palletised loads, minimising oscillations and the risk of falling.

The tines are mechanically adjustable laterally, allowing the implement to adapt to pallets of any shape, and ensuring even distribution of weights.

It requires a third hydraulic line.

Technical data sheet

			FPT 15Q	FPT 20Q
Width		mm	1200	1200
Total length		mm	1000	1100
Implement height		mm	560	560
Weight		Kg	205	210
Max. load capacity		Kg	1500	2000
Forks FEM IIA		mm	100x35	80x40
Side shifting		mm	210	210
Additional hydraulic lines		nr	1	1
