

FPT pallet fork with side-shift

Pallet fork with shifting function allowing side movement of the implement. Its compact, sturdy structure allows loading pallets and palletised loads, minimising oscillations and the risk of falling.

The tines are mechanically adjustable laterally, allowing the implement to adapt to pallets of any shape, and ensuring even distribution of weights.

It requires a third hydraulic line.

Technical data sheet

| | | | FPT 15Q | FPT 20Q |
|----------------------------|--|--|----------------|----------------|
| Width | | | 1200 | 1200 |
| Total length | | | 1000 | 1100 |
| Implement height | | | 560 | 560 |
| Weight | | | 205 | 210 |
| Max. load capacity | | | 1500 | 2000 |
| Forks FEM IIA | | | 100x35 | 80x40 |
| Side shifting | | | 210 | 210 |
| Additional hydraulic lines | | | 1 | 1 |
