

FP pallet fork

Its compact, sturdy structure allows loading pallets and palletised loads, minimising oscillations and the risk of falling.

The tines are mechanically adjustable laterally, allowing the implement to adapt to pallets of any shape, and ensuring even distribution of weights.

Technical data sheet

			FP 10Q	FP 15Q	FP 20Q
Width			1200	1200	1200
Total length			1000	1000	1100
Implement height			560	560	560
Weight			130	145	150
Max. load capacity			1000	1500	2000
Forks FEM IIA			80x30	100x35	80x40
